

Letter of Recommendation

Dear Admission committee,

It gives me immense pleasure to write this letter of recommendation for one my best student Mr. Viraj Pawar. I strongly corroborate his decision to pursue Doctoral programme in your reputed University.

I came to know him in Third year while teaching his class. Initially, as a subject teacher for Mass Transfer 1 and Mass Transfer 2 class, his intelligence, diligence and honesty outweighed any other student in the class. I was thoroughly impressed by his commitment and earnestness to learn topics which intrigued him. His zest to acquire knowledge was unbeatable.

Later, as a guide for his research project based on multiphase stirred tank reactor, I witnessed him first hand. Right from lab scale modelling of the project to its software programming on ANSYS Computation Fluid Dynamics, he exhibited nothing but severe perseverance, patience and determination. It was definitely commendable for an undergraduate to learn the complex ANSYS CFD software in such a short period and with his sheer dedication, he made it possible.

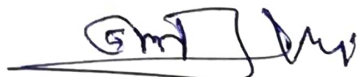

This project later went on to win him National level award for paper presentation an event organised by reputed organisation of Indian institute of chemical engineers. Also, he published an article about it which made him the first bachelor student to do it in our college.

All along his journey, I noticed and would like to highlight his keen interest in Multiphase reactors in a Broadway and his zeal for working on the same. His exceptional clarity of thoughts and innate passion, persistence to excel at any task undertaken makes him distinctive. He bears a good moral character and is exceptionally skilful at dealing with people in various positions.

I have found Mr. Viraj Pawar to be a student with colossal potential which will help him succeed in his endeavour towards obtaining a Doctoral degree.

I have absolutely no hesitation whatsoever in recommending Mr. Viraj Pawar for admission in your esteemed University. I am confident he will make an excellent addition to your university's community.

Regards

LETTER OF RECOMMENDATION

Dear Admission Committee,

I am writing to wholeheartedly recommend Viraj Santosh Pawar for any doctorate degree within your esteemed organization. During my time working with Viraj on a project for designing P&IDs in a refinery from April 2020 to March 2021, I was thoroughly impressed by his tremendous knowledge and expertise in process engineering.

Viraj's proficiency in process design, equipment designing calculations, is truly exceptional. He demonstrated remarkable proficiency in the HYSYS simulation software, which was crucial to the success of our project. I was impressed with his ability to quickly adapt to any given situation and consistently deliver quality work, even under tight deadlines. He is not only a highly skilled engineer but also an excellent team player. He is always willing to collaborate and share his knowledge with others to achieve common goals. His positive attitude and willingness to go above and beyond his responsibilities have earned him the respect of his colleagues and peers.

Viraj is an effective communicator with both his team and clients because, in addition to his technical skills, he boasts outstanding communication skills. This enables him to effectively convey information to both groups. He is always prepared to listen to the thoughts of others and provide input that is both reflective and constructive.

I am writing to provide my unreserved recommendation for Viraj for any doctorate degree within your esteemed organization. He is an exceptional engineer who possesses an incredible skill set, and there is no doubt that he's going to make a significant contribution to the success of your team.

Please do not hesitate to contact me if you require any further information about Viraj. I give him my highest recommendation without reservation.

Sincerely,

Ramana Natesan
