If the number of lessons includes "P" signs, i.e. it is given in the format LE/PR/LA, then these figures indicate the number of lectures/practical seminars/labs.

The grading is in a five-point system:

excellent (5) - the student's knowledge covers the entire material and inner relationships within the same;

good (4) - the student knows the material and is capable of applying that knowledge;

medium (3) - the student knows the essential parts of the material, and is capable of applying that knowledge adequately;

low pass (2) - the student knows the essential parts of the material, and is capable of applying that knowledge at a still acceptable level;

fail (1) - the student is unable to prove that he/she knows and is capable of applying the essential parts of the material.

Qualifications - High pass (JMF), pass (M) or did not pass (NMF)

Pass/no credit - signed (A), not signed (NA)

Total number of credits earned: **42**

Total number of credits transferred: **0**

Credits earned per semester, grade point averages:

Semester	Number of credits registered	Number of credits earned	Stipend index	Corrected credit index	The aggregate corrected credit index	Credit index	Corrected academic average	Corrected weighted academic average
